Why This List?

Building the right team is crucial for the success of any startup. As an entrepreneur, hiring decisions directly impact your company's culture, growth, and ability to execute. This curated list provides expert advice on hiring the first employees, co-founders, and building a successful team for your startup. Mastering the key hiring concepts will help you make informed decisions, streamline your recruitment process, and ensure you're selecting the best talent for your business.

Why Co-Create This List?

Entrepreneurship and hiring are both evolving constantly. The startup landscape is competitive, and having the right team is essential. This list provides valuable definitions, best practices, and links to expert resources that will make your hiring process efficient and effective. Whether you are just starting or scaling your startup, understanding these key hiring practices will help you recruit the right people at the right time.

Start Right Initiative Introduction

This list is designed to help **entrepreneurs** by curating and carefully selecting the best publicly available content. Instead of creating new material, let's compile the existing valuable resources. With so many great resources, start better. Don't commit the known mistakes; commit the new ones.

If you have any suggestions for the list, [please suggest them here.](#)

About Wadhvani Foundation

Wadhvani Foundation is a high-growth, not-for-profit tech organization dedicated to social good. Over two decades since its inception in 2001, the foundation with worldwide presence has focused on a simple, powerful mission: accelerating job growth and enabling millions to earn a family-sustaining wage and lead a dignified life.

The Foundation is positively impacting the lives of millions of individuals across multiple countries in Asia, Africa, and Latin America through its four core initiatives:

- 1) Entrepreneurship
- 2) Skilling
- 3) Innovation & Research
- 4) Government Digital Transformation

Hiring Your Co-Founders and Early Team Member

Team Composition Matrix

Matrix Organizational Structure In A Nutshell

A matrix organizational structure generally describes a business with multiple managerial accountability and responsibility. The main types of matrix structures comprise the strong matrix (authority lies with a project manager who has a senior role within the company), balanced matrix (it equally distributes power to both the project and functional manager), and weak matrix (where power lies with the functional manager completely).
